6+ years of experience in building scalable services, providing solutions, problem resolution and implementation of software applications, focused on Backend Engineering in Java and Golang by considering the best practices and clean code way of building products. Proficient at developing Web applications, Client Server applications. Experienced with troubleshooting and debugging skills. Knowledge of Agile/Scrum and the entire software development life cycle (SDLC).

**WORK EXPERIENCE**

**Siemens Technology & Services Pvt. Ltd.**

02/2022 - Present

Software Engineer

Full-time

- Actively participated in architectural discussions and designed the complete low level design of the system to develop scalable and robust software solutions using Go.
- Actively collaborated with clients and product managers to understand the requirements and integrations of services.
- Implemented end-to-end life cycle of an application from implementation to deployment of application alongwith unit tests and contract tests.
- Successfully deployed the multiple services on multiple regions of the AWS cloud using Terraform and Serverless Framework.
- Conducted code reviews, mentored junior engineers, and provided technical guidance to enhance team performance.

**Clairvoyant India Pvt. Ltd.**

02/2018 - 02/2022

Software Engineer

Full-time

- Worked on implementing multiple requirements in microservice architecture, handling authentication/authorization of users and inter-service communications, which also included writing of unit tests and integration tests.
- Showcased and implemented a low level design, considering the best practices and clean code to optimize the application to enhance performance for thousands of users.
- Worked over enhancement of database implementing normalization of multiple database tables.
- Involved in maintaining the CICD pipelines to continue with the smooth deployment of applications.

**SKILLS**

- Golang
- Java(Intermediate)
- Spring Boot
- Restful Web-Service
- DevOps
- CI/CD
- Git
- IntelliJ
- VSCode
- MySQL(SQL)
- AWS
- HTML
- CSS
- Javascript
- JQuery
- Angular2
- GitHub
- Agile
- Scrum
- Kanban
- Rest API
- Messaging Queues
- AWS DynamoDB(NoSQL)
- Gitlab
- SNS/SQS
- AWS Lambda(Serverless Computing)
- SDLC
- Docker
- CQRS

- Helped with the onboarding of new team members for the project.

## Associate Software Engineer

Full-time

- Involved in design discussion, maintenance and development of new requirements in existing applications.
- Worked on integrating applications with other services and messaging queues.
- Worked on debugging, code fixing and further strengthening of unit test cases.

## AWARDS & SCHOLARSHIPS

### Star Award

Siemens Technology and Services Pvt. Ltd.

08/2023

## EDUCATION

### Master of Computer Application (MCA)

Pune University  
Pune

### Bachelor of Computer Application (BCA)

Veer Narmad South Gujarat University  
Surat
